PROYECTOS CURRICULARES

La secuenciación temporal de los contenidos gramaticales anteriormente expuestos se encuentra en los Proyectos Curriculares que, a tal efecto, se han elaborado para la primera y segunda parte del curso de latín por parte de los autores de la versión española de este Manual.

Estos Proyectos pretenden ser, más que un mero documento que cubre un apartado legal obligatorio para el profesorado de la materia, un auténtico instrumento de consulta del que pueden hacer uso los docentes en su devenir diario con LINGVA LATINA a modo de guía para la clase, complementaria con los *Libros de Instrucciones para el alumnado (Latine disco I y II)*, puesto que añaden aspectos más específicos de nuestros planes de estudio, tales como el tratamiento de la etimología o de los contenidos de literatura.
